

Fewer seams than the old-fashioned standard size!

It's easy to spot a home with an elegant siding installation. The course lines are straight and smooth. The joint lines – where individual “board” lengths come together – are either non-existent or carefully minimized. The overall appearance is one of uniform, uninterrupted beauty.

It's a look you typically see in custom wood siding installations. Because lumber comes from mills in different lengths, installers can minimize joints to keep focus on the aesthetic features of a home. But that's harder to do with standard-length sidings – whether vinyl, fiber cement or hardboard. Typically, they require a joint every 12 feet.

25' XXL Extended Length

Finishing touches add distinction. To complete your exterior design, choose from a wide variety of trim and accessory options – including exclusive Trimworks® details – all color coordinated with Charter Oak XXL to make decision-making easy.

Trimworks beaded corner post.

Alside Premium Shakes – the classic look of deep-grained cedar shakes.

Charter Oak invisibly-vented soffit.

Trimworks 5" window trim.

Trimworks 7" fluted corner post.

Alside Premium Scallop – Victorian inspired half-rounded shingles.

Independent tests confirm the quality.

Under an independent program sponsored by the Vinyl Siding Institute, Charter Oak received ASTM D3679 certification, the industry standard for quality. In addition, Charter Oak is one of the siding systems certified under VSI's new color retention standard, ASTM D6864. To earn this special color certification, the colors were subjected to grueling weather and time tests to ensure they meet or exceed retention requirements and resist major changes in a variety of climates.

Warranty information.

Charter Oak XXL and Alside accessories are backed by lifetime limited warranties. Copies of the warranties are available by writing to:

Alside Warranty Department
PO Box 2010, Akron, Ohio 44309

Environmentally friendly.

The home that protects you can also help protect the environment. As a durable, eco-friendly product with a long service life, Alside vinyl siding reduces the depletion of wood and other natural resources used in home construction. And because it never needs to be painted, it helps prevent paint, stain and other maintenance-related products from harming the earth.

Pertains to Charter Oak XXL Vinyl Siding. Consult the VSI website at www.vinylsiding.org for a current list of certified products and colors.

With Charter Oak XXL siding . . . it's what you don't see that makes all the difference.

Charter Oak® XXL . . . brings out all the beauty of your home.

That's why Alside introduced Charter Oak XXL reinforced vinyl siding. It's more than twice as long as standard siding, 25' to be exact. At the very least, that means significantly fewer overlaps are required to complete an installation. More importantly, Charter Oak XXL siding gives installers all the flexibility they need to create the long, clean course lines that give a home distinction.

One look at a Charter Oak XXL installation tells you all you need to know: With fewer overlaps to see, there's much more beauty to appreciate.

12' Standard Siding

25' XXL Extended Length Siding

When Alside introduced Charter Oak more than a decade ago, it was an industry first: an advanced nail hem and locking system that provided added rigidity and reliability to the entire panel. Today the TriBeam® System remains the industry standard for exceptional rigidity and performance.

That rigidity means unsurpassed installation quality: straight course lines; smooth, even walls; top-to-bottom beauty, in both new construction and remodeling projects. And you can count on that quality for as long as you own your home. Alside's lifetime limited warranty* puts it in writing.

You can also count on superior resistance to the shearing power of violent winds. In independent tests, the TriBeam rolled-over nail hem held Charter Oak solidly in place in winds reaching Category 5 hurricane intensity. We hope you never need that kind of reliability, but it's comforting to know it's there. Charter Oak XXL. Engineered for lasting beauty.

When you paint the exterior of your home, your design options don't go much beyond the basics: What color for walls, what color for trim?

But with Charter Oak XXL, color choices are just the beginning. You can also choose from a gallery of outstanding panel features to create just the look you want for your home.

Classic profiles. The traditional clapboard profile (4½" exposure width) is an American favorite, appropriate for every type of home from ranch to Victorian and every region of the country. For a panel with an added dimension of appeal, choose an elegant dutch lap profile (4½" exposure) with its graceful cove detailing.

Natural surface texture. Charter Oak XXL looks like it came from a lumber mill, not a manufacturing plant. It features a detailed texture that looks and feels like the surface of quarter-sawn oak boards.

The look of fresh paint. No choice to make. Whatever color and profile you choose, Charter Oak XXL provides a luxurious low-gloss finish that looks just like freshly painted wood.

Deep, realistic shadow lines. Shadow lines define panel courses by providing a sense of depth. The thicker the bottom edge of a panel, the more pronounced the shadow. And the deeper and bolder the shadow, the richer and more elegant the impression created. Charter Oak XXL features a full ¾" panel projection, the same as expensive wood siding.

A palette of contemporary, easy-care colors. Choose from ten beautiful colors. These designer colors go clear through the panel, so there's no need to worry about chipping or scratching. And because the darker, richer colors are formulated using ChromaTrue®, you get superior fade resistance. To keep your siding looking as fresh and clean as the day it was installed, just rinse occasionally with a garden hose.

ChromaTrue®
ChromaTrue helps make Charter Oak better with ASA weatherable polymers which provide superior fade resistance and better performance on darker colors.

Glacier White	Antique Parchment
Platinum Gray	Cape Cod Gray
Coastal Sage	Juniper Ridge
Adobe Cream	Monterey Sand
Vintage Wicker	Tuscan Clay
