

CENTERLOCK®

Premium Vinyl Siding

*Double locked.  
For twice the beauty, quality and satisfaction.*

Alside®

*CenterLock® Premium Vinyl Siding captures all the beauty of a traditional wood siding installation – with straight course lines, tight flat joints, identical “board-to-board” appearance and realistic look-of-wood details.*

*Advanced panel design.*

Only CenterLock uses a patented locking system that pulls panels tight to the wall. Extra-thick panels stay flat and overlaps are minimized, producing walls with the smooth, even appearance of solid wood. Added rigidity helps span faults in walls, assuring straight course lines that last.

*Unmatched appearance.*

The patented locking system also provides consistent “board to board” appearance – the look siding is supposed to have.

*Outstanding beauty.*

Classic 4 1/2" clapboard and dutch lap profiles, along with a richly detailed grained cedar texture adds the look and feel of wood. Deep, realistic shadow lines and a low-gloss, look-of-paint finish add to the appeal. For maximum design flexibility, CenterLock is available in 14 popular colors.

*Superior wind resistance.*

CenterLock uses an extra tough nail hem to keep panels locked in place, even in winds exceeding 150 mph.

*Easy-care maintenance.*

CenterLock is made with durable premium vinyl, so it won't warp, rot or peel. And it never needs staining or painting. Just wash occasionally with a garden hose to restore like-new beauty.

*CenterLock.  
It's everything you want  
in a vinyl siding.*

*Designed for lasting distinction. CenterLock.*

# Patented Design Adds True Look-of-Wood Beauty

## The patented double locking system makes the difference.

Ordinary vinyl panels are secured at two points – nailed at the top, locked at the bottom. Only CenterLock adds a positive interlock midway down the panel. The second lock pulls panels flat and keeps them tight, producing smooth, even walls with the look of traditional wood siding.

## The realistic look of individual boards.

With ordinary vinyl sidings, you can see a slight variation between the upper and lower “boards” of each panel. But not with CenterLock. Because it uses two locks in each panel, every CenterLock “board” is identical. The result is true look-of-wood beauty.

Patented double locking system makes CenterLock the only siding with consistent board-to-board appearance.

## Overlaps almost disappear.

Competitive vinyl sidings are joined only at the top and bottom, so they can pull apart at mid-panel, causing unsightly gaps at overlaps. CenterLock’s advanced locking system keeps panels tight to the wall, producing smooth, flat laps, and added rigidity\* to help span faults in walls, assuring straight, course lines that last.

\*In independent tests against seven competitive panels, CenterLock on average provided up to three times more wall-straightening rigidity.

CenterLock.

Conventional Siding.

## Environmentally friendly.

The home that protects you can also help protect the environment. As a durable, eco-friendly product with a long service life, Alside vinyl siding reduces the depletion of wood and other natural resources used in home construction. And because it never needs to be painted, it helps prevent paint, stain and other maintenance-related products from harming the earth.

*Color-coordinated accents to complement your siding.*

CenterLock gives you all the beauty of a traditional wood siding installation. And, with Alside's color coordinated, easy-care trim and accessories, you can add striking accents that give your home lasting distinction.

*Rich palette of exterior design options:*

Glacier White	Antique Parchment
Natural Linen	Platinum Gray
Cape Cod Gray	Coastal Sage
Juniper Ridge	Mystic Blue
Adobe Cream	Colonial Ivory
Maple	Monterey Sand
Vintage Wicker	Tuscan Clay

*Note: Colors are as accurate as printing techniques allow. Make final color selections using actual vinyl samples.*

*Horizontal band board provides a strong horizontal accent.*

*Alside Premium Scallops – Victorian inspired half-round shingles.*

*Greenbriar® Vintage Beaded soffit and Trimworks® soffit crown molding.*

*Trimworks® 3 1/2" window trim.*

*Trimworks® 5" window trim.*

*Charter Oak® invisibly-vented soffit.*

*Alside Premium Shakes – the classic look of deep-grained cedar shakes.*

*Trimworks® custom crown molding used with wood window trim.*

*Trimworks® three-piece beaded corner post.*

# CenterLock Premium Vinyl Siding

## *The ultimate combination of beauty and performance.*

If you want the classic look of wood for your home but you'd rather skip the maintenance, your decision is easy – CenterLock Premium Vinyl Siding. Because only CenterLock gives you:

- An advanced mid-panel lock that pulls siding tight to walls and keeps it that way, producing smooth, clean lines and flat, snug overlaps.
- Consistent board-to-board appearance – the true look of wood siding.
- Premium thickness and enhanced panel rigidity that help assure straight course lines that last.
- An extra strong nail hem that resists the effects of damaging winds, even those exceeding 150 mph.

- Realistic look-of-wood beauty, with classic clapboard and dutch lap profiles, natural cedar grain texture and deep, dramatic shadow lines.
- Popular colors with a low-gloss, look-of-paint finish.
- Extensive, color-coordinated trim and accessory options that let you add distinctive finishing touches at all accent areas. All provide easy-care convenience.

Beauty, quality and performance are locked in, along with years of continuing satisfaction.
