

The Timeless Appeal of Handcrafted Beaded Wood Soffit

With the perfect measure of historic charm, Greenbriar Vintage Beaded Soffit faithfully recreates the timeless appeal of handcrafted wood beadboard. The gracefully sculpted bead and narrow board call to mind the beauty and refinement of 19th century Victorian England homes – where pristinely trimmed porches, gables and other accent areas were certain to draw admiring glances. Today, this same exquisite detail is masterfully presented in a durable, protective vinyl soffit. Not only will Greenbriar Vintage Beaded Soffit lend character and style to the exterior of your home, it will promote essential air circulation for the eaves and rafters.

Greenbriar and the Alside Exterior Design System™

Add excitement and visual appeal to your home with Alside's Exterior Design System – a coordinated collection of easy-care trim products for every accent area.

Choose from our exceptional collection of integrated accessories. Trimworks® features distinctive treatments for windows, doors, corners and other accent areas, while Architectural Classics® offers ornamental accent panels in scalloped and cedar shake patterns. A variety of soffit profile designs makes it easy to dress up eaves, porch ceilings and entryways with the perfect touch of style. All options are fully color-coordinated with Greenbriar Vintage Beaded Soffit and Alside sidings.

VINTAGE BEADED SOFFIT

Premium Vinyl Soffit System

Distinctive quality with historic appeal.

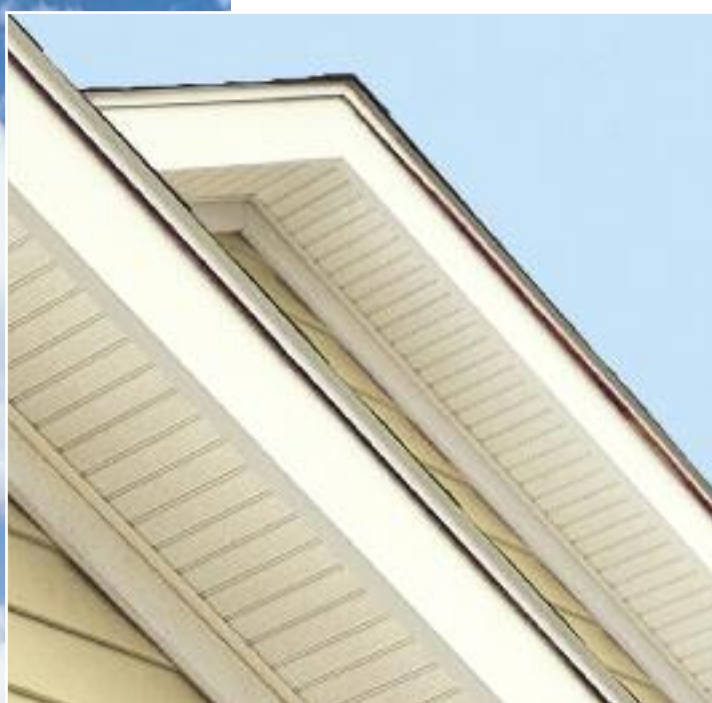

Alside

Striking style, impressive strength.

Greenbriar Vintage Beaded Soffit marries superb performance with stately elegance. A heavy-duty vinyl construction provides a durable, strong backdrop for this premium soffit, while an authentic beadboard design and luxurious matte texture create a markedly superior finish. Vent slots hidden in the recessed grooves ensure ample ventilation without compromising the smooth, upscale appearance.

Recessed vents in the grooves provide essential airflow throughout the roof structure and eaves, yet maintain a smooth appearance for maximum curb appeal.

Greenbriar Vintage Beaded Soffit's graceful blend creates a dramatic shadow line while its low-gloss finish and matte texture capture the historical beauty and charm of freshly painted wood beadboard.

Distinctive quality with historic appeal. Greenbriar Vintage Beaded Soffit.

Greenbriar Vintage Beaded Soffit will beautifully enhance porch ceilings, roof overhangs and gables with classic style. When you stand back and look at the exterior of a home, it's often the crisp lines and clean finished look of these distinctive architectural elements that catch your eye.

Essential ventilation for your home.

A well-designed soffit system is essential to maintaining the structural integrity of a home. When properly installed, soffit promotes directional airflow and allows trapped moisture to escape from the eaves and rafters. Greenbriar Vintage Beaded Soffit is performance-engineered with recessed vent slots to provide air circulation throughout the roof structure – helping to keep your home in great shape both inside and out.

Easy-care upkeep.

Greenbriar Vintage Beaded Soffit is a pleasure to maintain. The durable vinyl construction won't warp, rot or peel and never needs to be painted. Just rinse occasionally with the garden hose to freshen its appearance.

Complementing colors.

With five elegant colors to choose from, Greenbriar Vintage Beaded Soffit lets you design a soffit system that complements the individual character of your home. From subtle, warm hues to just-right white, your home will be a beautiful reflection of your own good taste.

- Glacier White
- Antique Parchment
- Juniper Ridge
- Monterey Sand
- Vintage Wicker
- Tuscan Clay

Note: Colors are as accurate as printing techniques allow. Make final color selections using actual vinyl samples.

Environmentally friendly.

The home that protects you can also help protect the environment. As a durable, eco-friendly product with a long service life, Alside vinyl siding reduces the depletion of wood and other natural resources used in home construction. And because it never needs to be painted, it helps prevent paint, stain and other maintenance-related products from harming the earth.

The promise of excellence.

The first step to a beautiful home comes long before a siding contractor pulls into your driveway. It starts with the product development teams and manufacturing specialists at Alside, who select materials, refine designs and continuously improve production and quality control processes. All this with one goal in mind: unparalleled product quality, on the day of installation and for decades to come.

For more than 50 years, Alside has manufactured premium quality siding and accessories for homes throughout the country. Our commitment to innovation, superior craftsmanship and outstanding customer service has defined our legacy of leadership. When you choose Alside for your home, you're getting world-class building products backed by a time-honored tradition of quality and performance.
