*When it comes to giving your home a professionally finished look, details make all the difference. That's why we offer Alside Aluminum PVC-Coated Soffit Systems in colors that match Alside steel and vinyl siding. Create a seamless design with our ColorConnect® Color Matching System, or add visual interest by selecting a contrasting color – **the choice is yours with Alside.***

## *"What is Aluminum PVC-Coated soffit?"*

Alside Aluminum PVC-Coated soffit panels are installed underneath roof overhangs, and also as porch ceilings. Matching trim pieces, such as preformed fascia and J-channel, are installed with the soffit to create a beautiful, finished appearance.

## *"Why are there holes in my soffit!?"*

Surprisingly, to protect your home! Our properly installed Aluminum PVC-Coated Soffit System – usually combining solid panels with full- or center-vent panels – helps your home breathe. Hundreds of tiny aeration vents create positive airflow year-round. In hot weather, it helps remove unwanted heat – saving you money on cooling bills. In cold weather, it helps prevent damaging moisture condensation. The bottom line: Your home works better for you.

## *"What about durability?"*

Alside Aluminum PVC-Coated soffit is manufactured from commercial quality aluminum sheet. The exposed side is roll-coated with a corrosion-protective chemical treatment, followed by a corrosion-protective primer. The final third coat is a polyvinyl chloride plastisol coating applied in an attractive striated pattern. The back side is coated with a corrosion-protective chemical and a corrosion resistant thermosetting polymeric coating. The finished products are corrosion-resistant, and will never rot, peel or flake like painted or stained wood.

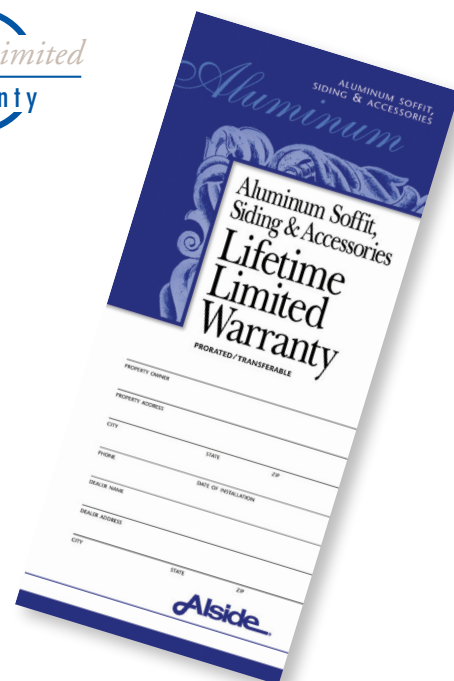

## *"What about maintenance?"*

Like your Alside siding, our Aluminum PVC-Coated Soffit Systems are virtually maintenance-free. No more reaching overhead to scrape, paint or stain... just rinse off occasionally with a garden hose to keep it clean.

## *"Will you guarantee it?"*

Yes. We believe in standing behind our products – so they look great and perform well for years to come. A Limited Lifetime Warranty warrants our Aluminum PVC-Coated Soffit Systems, including fascia and other accessories. See printed warranty for details.

20-Year Limited  
Warranty

Color availability may vary by location. Not all profiles are available in all colors. See your Alside Representative for details and availability.

Colors are produced by lithographic process and may vary slightly from actual product color. We recommend you make final product selections using actual aluminum samples.

Alside reserves the right, at its option, without liability, to change, and/or delete products or colors at any time without notice. © 2008, Alside, Inc. Printed in USA 02/08 75-3353-01
